

DEVELOPER WANTED

Campaign
Concierge

Who we are looking for.

- Frontend Developer (Next.js)
- Backend Developer (Next.js)
- Crawler/Clickbot Programmer (Next.js)
- Mathematics Expert (Algorithm Enhancement)

Your Profile.

- Team players with strong collaboration skills
- Innovative problem solvers
- Practical experience in technology applications

What's in for you.

- Work on innovative areas
- Responsible for your own projects
- Close cooperation with the founders
- Job offers with share compensation

What we do.

- **Keyword Categorization:** Automatically categorize Amazon campaign keywords.
- **Automation Tools:** Develop clickbots and crawlers for listing and research automation.
- **Marketing Optimization:** Streamline product marketing to save time and costs.
- **Expert Guidance:** Help sellers build strong products and succeed on Amazon.

Our Mission.

Campaign Concierge is the first platform for small and medium-sized Amazon sellers who want to maximize their product performance. Our digital and data-driven services provide clear insights into sales data and use a mathematical algorithm to cost-effectively optimize ads, enabling sellers to increase sales without the need for expensive experts.
