

# IDP-X

Work **creatively**, **agile** and **iteratively** on an individual project in an **interdisciplinary team** for one semester. Anything is possible, as long as it is **new**, it is **true**, and it **matters**.

You will work together with designers, architects or human factors specialists and learn tangible methods for project management as well as for idea generation, prototypical implementation and human-centered evaluation.

## ASSIGNMENT

During the Kick-Off you form interdisciplinary teams (~ 5 students per group). We provide the entire course with a leitmotif.

## KICK-OFF

Two-day workshop to form teams and get familiar with the process, instructed by your coaches.

## TEAMWORK

Elaboration of your team topic for 14 weeks in an iterative, agile and creative way, supported by tutors. Learn and apply new tools and methods for idea generation, prototypical implementation and human-centered evaluation. Improve your soft skills in communication, collaboration, interdisciplinary teamwork and conflict management.

## HOME STRETCH

Present and document your project work, results and experience with regard to the leitmotif.

## WHEN (summer and winter)

12. -13. October 2023

Every week during the semester

At the end of the semester

## WHERE

MW

MW

MW

## WHAT

2 Day Sprint | Kick-Off

Inputs and Milestone Presentations

Final Presentation
