

# Project Studies - User Experience Design for AI (m/f/x)

Project studies at AI Construction Startup Alago

We are looking for **authentic talents** with **personality** to **empower construction project planners**. We are tackling one of the most **under-digitized industries** in the world. Our mission is to transform the **vast, unstructured data** of the construction sector into a valuable resource for **actionable insights**. We're creating a **data lake** that's set to become the **heart of construction project management**. Backed by the expertise of the **M&M** and **CDTM ecosystems**, our lean and agile team is bringing the construction industry into the digital age, redefining how data is managed and utilized.

## Your Profile

---

- Familiarity with UX/UI design principles and tools like Figma
- Creative and driven to build the optimal user experience
- Excellent analytical skills with the ability to translate data insights into product decisions
- Strong communication skills to articulate complex AI concepts
- Experience with agile methodologies and product development lifecycle management
- You can apply as a team

## Your Challenge

---

- Develop a deep understanding of construction industry pain points and translate them into stunning and AI-driven interfaces
- Create consistent UX prototypes
- Develop reusable design components
- Develop metrics and KPIs to measure the impact of AI features on user productivity and project outcomes

## What We Offer

---

- Learn how to develop within a novel tech stack
- Learn to build and scale a software product
- Experience the dynamics of a start-up environment
- Take over a lot of responsibility
- Join us working in our design office at TUM Main Campis (Arcisstr.21)
- Work together with founders from CDTM + M&M
- Optionally get hired in addition through a Mini-Job

Take off and send a detailed application including your potential entry data by e-mail to [Vinzenz](mailto:Vinzenz). In case there are any questions left open, also feel free to reach out to us via email.
